ADVISORY BOARD: TAI XIE PH.D.

Dr. Xie is the founder and CEO of New Jersey based Brightech International (“Brightech”). Brightech was established in 2004 and grows to a full service CRO with over 100 staff members in US and China/Taiwan. Dr. Xie has over 24 years of clinical trial experience in pharmaceutical and CRO environments. Prior to founding the Brightech, he has gathered extensive pharmaceutical industry experience from companies including Arizona Cancer Center, Wyeth (a Pfizer Company), Johnson and Johnson and ImClone System (an Eli Lilly Company) holding positions from Sr. Statistician, Assistant Director and Associate Director. Dr. Xie is an expert in design of oncology trials and clinical data management. He has been helping companies from study design to FDA approvals and was an invited expert by China CFDA for drafting the Guidance for EDC Clinical Trials. He is also an active researcher with number of papers published in distinguished journals. Dr. Xie holds an adjunct assistant professor position at the Biostatistics Department at the School of Public Health of the Rutgers University, is a member of American Statistical Association, Drug Information Association, ASCO, Sino-America Statistical Association and an active journal reviewer for statistical journals.
